

As a resident of rural south central Indiana, K-LOVE provides me with a radio station that my whole family can listen to and that encourages me throughout the ups and downs of daily life. We do a lot of commuting over a 60 mile area which is served by two K-LOVE stations so that we hear their signal all along our trip. There are already countless commercial stations around which, more often than not, play songs which are unintelligible or lewd. The music and the heart of K-LOVE are unique in this area and would be sorely missed if replaced with an LPFM station!!
